

XPUNK LABS

Version 1.0 | June 2025

ABSTRACT

XPUNK Labs is redefining the Web3 gaming space by blending immersive cyberpunk aesthetics with blockchain technology. Players are empowered through true ownership of in-game assets, skill-based earnings, and governance rights, all powered by the native \$XPUNK token. This whitepaper outlines the foundational vision, utility, and architecture of XPUNK Labs.

INTRODUCTION TO XPUNK LABS

The gaming industry is evolving rapidly, but traditional models still limit player ownership, transparency, and involvement. XPUNK Labs addresses this gap by introducing a revolutionary Web3 gaming platform where players do not just play — they participate, earn, trade, and govern. The XPUNK universe is driven by cyberpunk design principles and built on a decentralized infrastructure to empower gamers as stakeholders.

Vision: To revolutionize digital gaming through decentralization, enabling players to own, control, and benefit from their in-game actions and assets across a multi-game cyberpunk universe.

Mission: XPUNK Labs is committed to building a transparent, engaging, and player-centric Web3 ecosystem by
